About Journal:

Iranian Journal of Pharmaceutical Sciences (IJPS) is an open access, internationally peer-reviewed journal that seeks to publish research articles in different pharmaceutical sciences subdivisions: pharmacology and toxicology, nanotechnology, pharmaceuticals, natural products, biotechnology, pharmaceutical chemistry, clinical pharmacy and other pharmacy related topics.

IJPS is the official journal of Iranian Association of Pharmaceutical Scientists and was first published in winter 2005. For 7 years, the journal's headquarter was in Shiraz University of medical Sciences with the privilege of having Professor Hossein Niknahad as the journal's editor in chief. The association decided to move IJPS's HQ to Shahid Beheshti University of Medical Sciences in November 2012.

In 2023 the Pharmaceutical Sciences Research Center at Shahid Beheshti University of Medical Sciences has officially assigned as the publisher of IJPS based on a contract between this center and the Iranian Association of Pharmaceutical Scientists.

Aims and Scope:

Iranian Journal of Pharmaceutical Sciences (IJPS) is an open access, internationally peer-reviewed journal that seeks to publish research articles in different pharmaceutical sciences subdivisions: pharmacology and toxicology, nanotechnology, pharmaceuticals, natural products, biotechnology, pharmaceutical chemistry, clinical pharmacy and other pharmacy related topics.

Each issue of the journal contents a minimum of 8 outstanding peer-reviewed research articles in area of pharmaceutical sciences in pharmacy.

All articles published by IJPS would be permanently accessible online freely without any subscription charges. Authors of the published articles have granted the right to use and disseminate their article to third parties.
